

WESTMINSTER UNDER SCHOOL

Policy on Safeguarding (Child Protection)

If you think a child is in immediate danger, or you believe a crime has been committed, ring the police on 999 before doing anything else.

Written by:	MJW
Version number:	V9.11
Effective date:	March 2021
Summary of changes:	<p>9.1 Update of Working Together to Safeguard Children document to 2020 version. Further detail on transferrable risk.</p> <p>9.0 Start of year update, including KCSIE 2020 changes and Appendix F for COVID-19 return to school</p> <p>8.1 Appendix E added for COVID-19, covering Remote Learning and the Key Worker School</p>
Approved by:	<p>Governors</p> <p>Version 9.0 not yet formally approved</p>

Introduction

Vision

Westminster Under School is totally committed to the welfare of all members of its community so that they grow, flourish and reach their potential. We seek to provide a safe and nurturing environment in order to achieve this.

The principle of safeguarding pupils is at the core of the School's foundation and all members of the school community should see this as their most important duty, both within the School's environment and beyond it. In particular, all members of the community are expected to be alert to the predicaments and needs of others, as well as to support each another at all times.

To this end, whilst policies regulate our activities, we look to work far beyond that, so that Safeguarding and wellbeing of our pupils form the heart of the School's ethos.

Overview

Westminster Under School ("the School") makes its Safeguarding Policy available to anyone. Members of staff are required to read it and the School ensures that it is implemented in full.

The policy is updated annually, or more frequently if required (e.g. where there is a change in legislation). It is provided to all staff and published on the staff intranet. Children and parents are informed of the policy which is also published on the School's website.

This policy applies to all individuals working at or for Westminster Under School ("the School"), including all teaching and non-teaching staff, residential and part-time staff, supply staff, governors, volunteers and contractors. All references to "staff" in this policy should be interpreted as relating to the aforementioned groups unless otherwise stated. This policy will also apply to parents of pupils, when they are on school premises or otherwise involved with school business, for example accompanying a school trip. It also applies to any staff, spouses or visitors who are resident in accommodation that is linked to a School building where pupils may be.

The Governing Body and staff of the School fully recognise that safeguarding is everyone's responsibility; that all staff and pupils have a role to play in safeguarding children and providing a safe environment in which children can learn. We do this by promoting the physical, mental and emotional health and safety of our pupils, and by recognising the importance of the School as a source of stability in the lives of all its pupils, but particularly those children who have suffered or who are at risk of harm. We seek to ensure that issues relating safeguarding and child welfare are always addressed.

The School also works to create an environment where pupils, parents and staff feel able to raise concerns and where staff feel supported in feeling that safeguarding is everyone's responsibility and that everyone has a role to play: it is not '*someone else's job*'. This is encouraged through training, the ethos of having Safeguarding at the very heart of what we do, the continual raising of the various

Safeguarding policies and procedures that the School has put in place and the raising of issues relating to Safeguarding in a local or national context.

The School operates on the basis of a co-ordinated and child-centred response to all safeguarding concerns. This means that staff should always consider what is in the best interests *of the child*.

Definition: Safeguarding

Safeguarding and promoting the welfare of children is defined as:

1. protecting children from maltreatment;
2. preventing impairment of children's mental and physical health or development;
3. ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
4. taking action to enable all children to have the best outcomes.

Definition: A Child

In English law, a child is "anyone who has not reached his or her 18th birthday".

Contextual Safeguarding

The School is aware that abuse can happen in any organisation and in many different contexts and as such, the School understands and acknowledges the value of Contextual Safeguarding.

Contextual Safeguarding is an approach to understanding, and responding to, the possibility of children experiencing significant harm beyond their families and the School setting. It is also possible for this to occur between children outside of these environments.

Contextual Safeguarding recognises that the different relationships that children form in their neighbourhoods, schools and online can feature violence and abuse. As such, children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence.

Parents and carers sometimes have little knowledge and/or influence over these contexts, and children's experiences of extra-familial abuse can undermine parent-child relationships. Therefore, we recognise that we need to engage with individuals and sectors who do have influence over or within extra-familial contexts, and recognise that assessment of, and intervention with, these spaces are a critical part of safeguarding practices.

Therefore, we seek to expand the objectives of child protection systems in recognition that children are vulnerable to abuse in a range of social contexts beyond School and family.

Terms of reference – External Documentation

This policy complies with the following key documents:

- *Keeping Children Safe in Education* (HM Government, September 2020)
- *Working Together to Safeguard Children* (HM Government, July 2020)
- *Independent School Standards Regulations* (HM Government, 2014)
- *Safeguarding children and young people* (Charity Commission Policy Paper, July 2014)
- What to do if you're worried a child is being abused: advise for practitioners (HM Government, March 2015)
- *Prevent Duty Guidance for England and Wales* (HM Government, July 2015)
- *Children Missing Education* (HM Government, September 2016)
- *Sexual Violence and Sexual Harassment between Children in Schools or Colleges* (HM Government, May 2018)
- *Handbook for the Inspection of Schools: Commentary on the Regulatory Requirements* (Independent Schools Inspectorate, September 2019)
- *Teaching Online Safety in Schools* (HM Government, June 2019)

This list is not exhaustive and due regard is given to a wide range of other important documents published by HM Government and other leading bodies.

Terms of Reference – Internal Documentation

This policy is linked with a number of other key school documents:

- Anti-bullying policy
- Behaviour, Rewards and Sanctions policy
- Data Protection policy
- e-Safety policy
- Equal Opportunities policy
- Health and Safety policy
- Physical contact and physical restraint policy
- Recruitment policy
- Safer Recruitment policy
- Staff Code of Conduct
- Supervision of Pupils policy (incorporating Policy on Pupil Attendance)
- Whistleblowing policy

The Designated Safeguarding Lead and Deputies

The School appoints a Designated Safeguarding Lead (DSL) who is a member of the School's senior management team and who takes lead responsibility for safeguarding and child protection. The DSL receives full training before taking up the role and attends further training sessions every two years

as well as keeping up to date with safeguarding developments regularly, and at least annually. Additionally, the DSL undertakes Prevent awareness training.

There are also three Deputy DSLs appointed who are trained to the same level as the DSL and can act appropriately when safeguarding issues arise if the DSL is unavailable.

During term time the DSL or a Deputy DSL will always be in school during school hours. The details of the members of this Safeguarding Team are on page 5 of this policy. If in exceptional circumstances the DSL or a Deputy DSL are not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the Senior Management Team and/or take advice from local children's social care. In these circumstances, any action taken should be shared with the DSL as soon as is practically possible. Do not speak to other adults or children about the matter.

While the DSL can delegate some safeguarding responsibilities to the deputies, the ultimate responsibility for safeguarding, including e-Safety, lies with the DSL. Annex B of KCSIE 2020 outlines the duties of the DSL.

Undertakings

Principles

The School's primary focus is the protection of its pupils, and seeks to provide a caring, safe and positive environment in which each individual child can grow and flourish, develop their own particular talents, and thereby find enjoyment and fulfilment. To this end:

- The School will support every pupil's development in ways that will foster their sense of security, confidence and independence, and in a manner that has respect for the dignity, privacy and beliefs of all, and which does not discriminate on the basis of gender, ethnicity, beliefs, race, culture, religion, caste, sexual orientation or disability. Further details are outlined in the Policy on Behaviour, Rewards and Sanctions.
- The School recognises that the welfare of the child is paramount. No child or group of children must be treated any less favourably than others in being able to access services which meet their particular needs; all children without exception have the right to protection from abuse.

Recruitment

The School will comply fully with the Government's published policies on safer recruitment, making the appropriate checks on all staff (including governors, employees, volunteers and contractors), through the Disclosure and Barring Service (DBS) and by obtaining and following up references.

Assurance is obtained that appropriate suitability checks apply to any staff employed by another organisation who might be working onsite (such as building or service contractors) and to any individual working with the School's pupils (such as after school clubs) or on an external site (such

as on school visits). Any individual working on our School site, and/or off-site with our pupils, for whom an enhanced DBS check with the barred list has not been obtained will not be allowed to work in regulated activity and will be supervised by School staff at all times.

The School's safer recruitment procedures are set out in full in the School's Policy on Safer Recruitment. These comply with Part 3 of KCSIE (September 2020), the Safeguarding Vulnerable Groups Act 2003 and other relevant safer recruitment guidance to ensure that no-one is employed within, by or on behalf of the School who is unsuitable to work with children.

Training

The School trains all staff, volunteers and governors, regardless of their role, to be vigilant and watchful for, and aware of, signs that a child may be in need of help as well as the signs of abuse and neglect. (See Appendix A)

To this end, all staff members receive appropriate safeguarding and child protection training which is regularly updated in line with the Tri-Borough LSCP's guidance. In addition, all staff members receive safeguarding and child protection updates (via email and staff meetings) as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. The DSL leads on ensuring that regular safeguarding and child protection updates are circulated to all staff.

As part of their induction programme all newly appointed staff, including part-time, temporary and voluntary staff, receive training in safeguarding issues including:

- this policy;
- Keeping Children Safe in Education (September 2020) Part 1 and Annex A for adults working directly with children;
- the Staff Code of Conduct;
- the Whistleblowing Policy;
- the Policy on Behaviour, Rewards and Sanctions;
- the safeguarding response to children going missing from education; and
- the role of the DSL.

Staff are obliged to sign to note they have read and understood the relevant sections of KCSIE, this policy, the Staff Code of Conduct, the Behaviour, Rewards and Sanctions Policy and the Whistleblowing Policy.

The initial training for all new staff will cover a number of aspects, including but not limited to:

- Part 1 of *KCSIE* (and Annex A for adults working directly with children), this policy and the Code of Conduct
- the signs that a child may be in need of early help or additional support, at risk of harm or suffering from harm
- indicators of abuse and neglect and specific safeguarding issues

- what to do if a child discloses abuse, including that confidentiality should never be promised and to avoid asking leading questions
- how to escalate concerns about a child and allegations of abuse
- inter-agency working, including in the context of a referral made to Children’s Social Services and / or the LADO, the statutory assessment process and that the staff member may be asked to contribute to a child protection strategy meeting
- early help
- peer on peer abuse
- online safety
- information sharing
- guidance for all staff on boundaries and appropriate behaviour, to ensure that their behaviour and actions do not place pupils or themselves at risk of harm or of allegations of harm to a pupil (for example, in one-to-one tuition, sports coaching, conveying a pupil by car, engaging in inappropriate electronic communication with a pupil, and so on)
- the existence and whereabouts of this policy, other relevant policies and safeguarding documentation including local authority procedures.

All staff are obliged to re-read and understand at least KCSIE Part 1 (and Annex A for adults working directly with children) each time it is updated by the DfE, and are told of updates by the DSL and Deputy DSLs. Mechanisms to assist them in understanding KCSIE include regular updates in staff meetings, links to news items on the staff e-Noticeboard, the issuing of the wallet-sized pink safeguarding cards (see Appendix A below) and short online quizzes to ensure new changes have been understood.

Communications and sharing information internally

The School emphasises the need for good levels of communication between all members of staff to ensure that a structured procedure for the safeguarding of children will be followed in cases of suspected abuse. (See Appendix C below) We recognise the importance of information sharing in protecting children from harm and promoting children’s wellbeing: the danger of not sharing information is highlighted in a number of serious case reviews. The School shares information in accordance with the General Data Protection Regulations (2018) and the guidance set out in Chapter 1 of *Working Together to Safeguard Children* (2020) and in *Information sharing: Advice for practitioners providing safeguarding services to children, young people, parents and carers* (July 2018).

The DSL is trained on the above guidance and works with staff to ensure that:

- a) fears about sharing information do not stand in the way of the need to promote the welfare and protect the safety of children;
- b) they understand and follow this guidance; and
- c) they feel confident about the ways in which they share information, including with parents, other staff, and external professionals and agencies.

The School provides a systematic means of identifying and supporting all children who are suspected of being in need of Early Help or additional support, or at risk from harm, and of handling such cases appropriately in line with the procedures set out below.

The School will ensure full written records of all child protection procedures are maintained and stored confidentially. All concerns, disclosures or allegations, decisions and subsequent actions will be recorded securely and confidentially. All discussions, the decisions made and the reasons for these decisions will be recorded.

Training Pupils about Safeguarding

The School will train those pupils in a position of pastoral responsibility, e.g.: School Prefects and House Officials in basic safeguarding procedures. They will have clear guidance through their training that their role is to listen, not to investigate and not to 'keep secrets' but to refer the matter if they receive any allegations of abuse.

Within the School's PSHEE programme, the Computing Programme of Study, during Church addresses and assemblies, and elsewhere in the curriculum, pupils are taught key safeguarding issues including but not limited to:

- Safety online (see the Policy on e-Safety);
- The dangers of radicalisation (within the PSHEE curriculum);
- Issues surrounding consent to sexual acts (within the PSHEE curriculum).

Communications and sharing information externally

The School will work closely with feeder and successor schools, as well as any of the three Safeguarding Partners (the Tri-Borough LSCP; the clinical commissioning group and the area chief officer of Police) and any appropriate agencies, so as to act in the best interests of the child and thereby safeguard and promote the welfare of children, including identifying and responding to their needs.

Feeder Schools and Successor Schools

The School will request safeguarding information from feeder schools.

Where pupils move to new schools, their child protection files will be transferred securely, separately from the main file, and a confirmation of receipt will be requested. The retention and destruction of files will be in accordance with the School's Data Protection Policy.

Multi-agency working

The School recognises that it has a pivotal role to play in multi-agency safeguarding arrangements, in line with the statutory guidance published in *Working Together to Safeguard Children* (December 2020), as well as, but not limited to the Safeguarding Partners' threshold documentation and

assessment procedures. Information will be shared securely with other professionals and local agencies.

If the School is named as a “relevant agency”, the School recognises that it is under a statutory duty to cooperate with the published arrangements of the safeguarding partners. This includes providing a coordinated offer of Early Help when additional needs of children are identified and contributing to inter-agency plans to provide additional support to children subject to child protection plans.

The School will allow access for children’s social care from the host local authority and, where appropriate, from a placing local authority, for that authority to conduct, or to consider whether to conduct, a section 17 or a section 47 assessment.

Data Protection

Written safeguarding records count as “special category personal data” under the *General Data Protection Regulation and Data Protection Act* (HM Government, 2018): they neither prevent nor limit the sharing of information for the purposes of keeping children and young people safe.

The School acknowledges that “safeguarding of children and individuals at risk” is a processing condition that allows it to share “special category personal data”. This circumstance includes allowing practitioners to share information without consent where there is good reason so to do. Where the sharing of information in a timely manner will enhance the safeguarding of a child, but it is not possible to gain consent, or it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk, then the School may release information if it is considered to be in the best interest of a child.

Where sharing information would result in the serious harm test being met, then the School will withhold providing the data in compliance with schools’ obligations.

Parents who ask to see records may be allowed access, provided this does not put children at risk and that any questions of the child’s consent are satisfied.

Ultimately, *General Data Protection Regulation and Data Protection Act* (HM Government, 2018): do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information will not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.

Contextual Challenges

Children with Special Educational Needs or Disabilities

Additional barriers can exist when recognising abuse and neglect in this group of children. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- Children with SEN and disabilities can be disproportionately impacted by bullying – without outwardly showing any signs;
- Communication barriers and difficulties overcoming these barriers.

The Learning Support department works with these pupils and help to identify such barriers; and the staff there provide another opportunity, in addition to those available to all pupils, for these children to raise safeguarding concerns.

Looked After Children (LACs)

A Looked After Child is a child who is looked after by a local authority, subject to a care order or who is voluntarily accommodated by a local authority. The most common reason for children becoming looked after is as a result of abuse and/or neglect.

The School does not currently have any LACs but it may do in the future. All staff should understand how to keep LACs safe. Where a staff member comes into contact with an LAC, they will be provided with the information they need in relation to the child's legal status and contact arrangements with birth parents or those with parental responsibility. They will also be provided with the child's care arrangements and the levels of authority delegated to the carer by the authority looking after him. The DSL takes the lead on all LACs and will have details of the child's social worker and the name of the virtual school head in the authority that looks after the child. The DSL will convene a meeting with relevant teachers, e.g. Head of Year, Form Teachers, etc. in order to share relevant information on any LAC.

Children who need a social worker (Child in Need and Child Protection Plans)

Children may need a social worker due to safeguarding or welfare needs. Children may need this help due to abuse, neglect and complex family circumstances. A child's experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour and mental health.

The School expects local authorities to share the fact that any of its pupils has a social worker, and the DSL will hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes.

Where children need a social worker, this will inform decisions about safeguarding (for example, responding to unauthorised absence or missing education where there are known safeguarding risks)

and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services).

Children requiring mental health support

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

All members of staff have a duty to report concerns to Form Teachers, the Head of Year or the Assistant Master, Pastoral, who will then share concerns with the DSL as necessary. Referral to those trained in counselling and support (both internal and external) may then be made. Whole Staff Meetings and Briefings, Year Group Meetings and weekly Heads of Year meetings with the Assistant Master, Pastoral are all forums where pupils' profiles can be discussed. The DSL has a scheduled meeting at least weekly with other members of the Safeguarding team where pupils requiring mental health support can be discussed.

Children at Risk of Significant Harm, Abuse and Neglect (Level Four)

Level Four, the highest level of need, is defined by Section 47 of the Children Act 1989.

At this level, children are either suffering, or at risk of suffering, significant harm. Significant harm is caused when a child's health or development is seriously or permanently altered or damaged. Inflicting significant harm on a child, or failing to act to prevent it, is a definition of child abuse and neglect.

All staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another.

Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others (for example, via the internet). They may be abused by an adult or adults, or another child or children.

Detailed symptoms, indicators and behaviours associated with child abuse can be found in *Child Maltreatment: when to suspect maltreatment in under-18s* (NICE, 2017) and a broader treatment is available in *What to do if you're worried a child is being abused: advice for practitioners* (HM Government, 2015).

Physical abuse

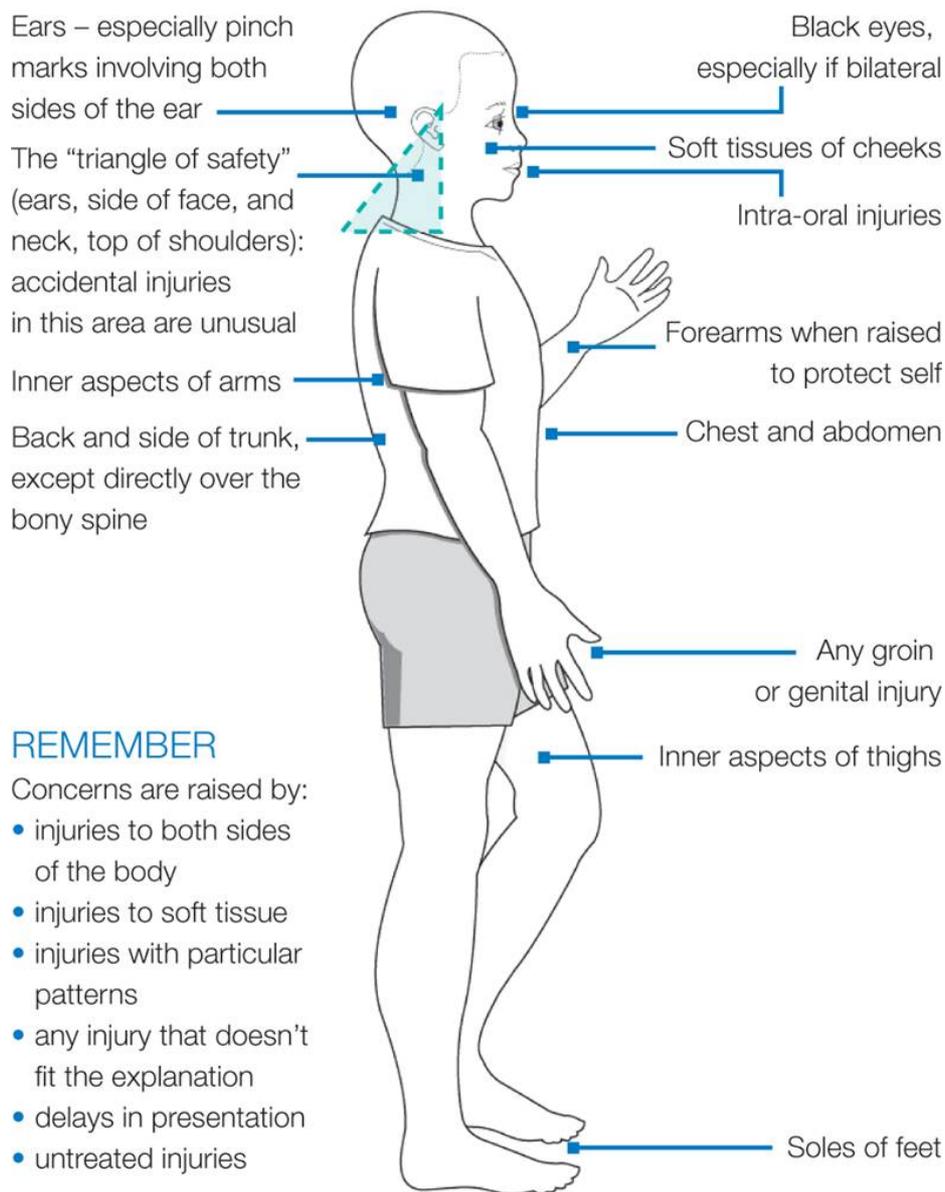

Physical abuse is a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Signs that may indicate Physical Abuse:

- Children with frequent injuries;
- Children with unexplained or unusual fractures or broken bones; and
- Children with unexplained:
 - bruises or cuts;
 - burns or scalds; or
 - bite marks.

Typical accidental injuries involve knees, shins, elbows, palms of the hands, chin and forehead. They are in keeping with any explanation given and the development of the child.

The body map below shows injuries which are less likely to have been caused accidentally and are therefore possible indicators of physical abuse.

Emotional abuse

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber-bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Signs that may indicate Emotional Abuse:

Children:

- Overreaction to mistakes
- Lack of confidence/self-esteem
- Sudden speech disorders
- Self-harming
- Extremes of passivity and/or aggression
- Compulsive stealing
- Drug, alcohol, solvent abuse
- Fear of parents being contacted
- Unwillingness or inability to play
- Excessive need for approval, attention and affection

Parents or carers:

- Parents or carers who withdraw their attention from their child, giving the child the ‘cold shoulder’
- Blaming their problems on their child
- Humiliating their child, for example, by name-calling or making negative comparisons

Sexual abuse and Child Sexual Exploitation (CSE)

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, and whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the Internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Signs that may indicate Sexual Abuse:

- Children who display knowledge or interest in sexual acts inappropriate to their age;
- Children who use sexual language or have sexual knowledge that you would not expect them to have;
- Children who ask others to behave sexually or play sexual games;
- Children with physical sexual health problems, including soreness in the genital and anal areas, sexually transmitted infections or underage pregnancy;
- Children who have sudden changes in behaviour and school performance;
- Children who self-harm, self-mutilation or attempts at suicide;
- Children who allude to secrets which they cannot reveal;
- Children who have a tendency to cling or need constant reassurance; and
- Children with a fear of undressing for gym activities.

Child Sexual Exploitation (CSE)

This is a form of sexual abuse where children are sexually exploited for money, power or status. It can involve violent, humiliating and degrading sexual assaults. In some cases, young people are persuaded or forced into exchanging sexual activity for money, drugs, gifts, affection or status. Consent cannot be given, even where a child may believe they are voluntarily engaging in sexual activity with the person who is exploiting them. Child Sexual Exploitation does not always involve physical contact and can happen online. A significant number of children who are victims of sexual exploitation go missing from home, care and education at some point.

Signs that may indicate CSE:

- Children who appear with unexplained gifts, money or new possessions;
- Children who associate with other young people involved in exploitation;
- Children who have older boyfriends or girlfriends;
- Children who suffer from sexually transmitted infections or become pregnant;
- Children who suffer from changes in emotional well-being;
- Children who misuse drugs and alcohol;
- Children who go missing for periods of time or regularly come home late;
- Children who regularly miss school or education or don't take part in education; and
- Children who present with depression or are withdrawn.

Members of staff need to be aware that, under the Sexual Offences Act 2003, it is an "abuse of a position of trust", and thus a criminal offence, for someone working in a school to "groom" or engage in sexual activity with a pupil aged under 18. The consent of the pupil (or the agreement of his or her parents) is irrelevant. Staff should also note that, under the Serious Crime Act 2015, it is now a criminal offence for an adult to communicate with a child under 16 if the communication is sexual or intended to elicit a response which is sexual. A relationship between a member of staff and a pupil over the age of 18, or a recent former pupil, is almost certain to be judged inappropriate by the School and will lead to an assessment of that member of staff's suitability for work in an educational context.

Neglect

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Signs that may indicate Neglect:

- Children who are living in a home that is indisputably dirty or unsafe;
- Children who are left hungry or dirty;
- Children who are left without adequate clothing, e.g.: not having a winter coat;

- Children who are living in dangerous conditions, i.e.: around drugs, alcohol or violence;
- Children who are often angry, aggressive or self-harm;
- Children who fail to receive basic health care;
- Parents who fail to seek medical treatment when their children are ill or are injured;
- Children who have poor personal hygiene;
- Children who are frequently tired;
- Children who are frequently late / non-attendance at school;
- Children who have a poor relationship with peers;
- Children who are compulsively stealing and scavenging;
- Children who run away;
- Children with a loss of weight / being constantly underweight;
- Children who have low self-esteem; and
- Children with poor dental hygiene.

Imbalance of Power

An individual or group taking advantage of an imbalance in power to coerce, manipulate or deceive a child into sexual or criminal activity is of itself abusive. Both Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE) are both examples of this.

Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources. In some cases, the abuse will be:

- in exchange for something the victim needs or wants;
- for the financial or other advantage of the perpetrator or facilitator and / or through violence or the threat of violence.

The abuse can be perpetrated by individuals or groups, males or females, and children or adults. The abuse can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse. It can involve force and / or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence. Victims can be exploited even when activity appears consensual and it should be noted exploitation as well as being physical can be facilitated and / or take place online.

Wider Safeguarding Issues

Behaviours linked to issues such as drug taking, alcohol abuse, deliberately missing education and sexting (also known as youth produced sexual imagery) put children in danger. The following is a non-exhaustive list of wider safeguarding issues that children may come into contact with.

Child on child sexual violence and sexual harassment

These matters are often complex and will require support from the LADO and police, as necessary. Victims should be immediately reassured that they have acted appropriately in reporting the matter and they must not be given the impression that they are creating a problem by making such a report, nor should they be made to feel ashamed.

Where there is a report of sexual violence, the DSL should make an immediate risk and needs assessment, then keep those assessments under review. This must consider:

- The victim, especially their protection and support;
- The alleged perpetrator; and
- All the other children (and, if appropriate, adult students and staff) at the School, especially any actions that are appropriate to protect them.

Engagement with specialist services will then be required.

Careful consideration will be given to:

- The wishes of the victim in terms of how they want to proceed;
- Any investigation will be progressed and any support that they will be offered;
- The nature of the alleged incident(s), including: whether a crime may have been committed and consideration of harmful sexual behaviour;
- The ages of the children involved;
- The developmental stages of the children involved;
- Any power imbalance between the children. For example, is the alleged perpetrator significantly older, more mature or more confident? Does the victim have a disability or learning difficulty?;
- If the alleged incident is a one-off or a sustained pattern of abuse;
- Are there ongoing risks to the victim, other children, adult students or school staff; and
- Other related issues and wider context.

Consideration, with the support of professionals, will be given as to how the matter will be handled:

- Manage internally: in some cases of sexual harassment (such as one-off incidents) a school may be allowed to manage the incident internally;
- Early Help: this is particularly useful in addressing non-violent, harmful sexual behaviour and may prevent escalation;
- Referrals to children's social care: in cases where there has been harm, or there is an immediate risk, a referral should be made to Children's Social Services;
- Reporting to the police: in cases where rape, assault by penetration or sexual assault is reported the School will not wait for the outcome of a Police investigation before protecting the victim,

perpetrator and other children in the school. The DSL will work closely with the Police to ensure that the School's actions do not jeopardise the Police investigation. If a child is convicted or cautioned, the School will update the risk assessment and consider suitable action through their behaviour policy.

It is important that sexual violence and sexual harassment are shown to be unacceptable and not passed off as 'banter' or 'part of growing up'. Where an incident takes place away from the School, the School's safeguarding duties remain the same. The School will take reasonable measures to protect the anonymity of any children involved in any report of sexual violence or sexual harassment, including considering the impact of social media.

It is important to ensure the victim and perpetrator remain protected, especially from bullying or harassment. Where no further action is taken, or a child is found not guilty, the School will continue to support the victim and perpetrator.

The School recognises that in cases where the Police choose to take no further action the School will continue to engage with specialist support for the victim. It is also acknowledged that, when a child abuses another child, they may themselves have been a victim of abuse and the need to support the alleged perpetrator will be emphasised.

If there are delays in the handling of these issues, the priority will remain the protection of the victim and their ongoing welfare; coupled with that will be a commitment to the safeguarding and support of the alleged perpetrator.

Some situations are statutorily very clear: a child under the age of 13 can never consent to sexual activity (the age of consent is 16); sexual intercourse without consent is rape (as defined in law); creating or sharing sexual images or videos of under 18s is illegal, including children making or sharing these themselves. The School recognises that consent means "freedom and capacity to choose" and this definition is addressed in the School's curriculum when appropriate.

Children Missing from Education

The School understands its duty, as explained in KCSIE, in relation to the risks posed by children missing from education. All children, regardless of their circumstances, are entitled to a full-time education which is suitable to their age, ability, aptitude and any special educational needs they may have. A child going missing from education is a potential indicator of abuse or neglect and the School will report to the Local Authority instances of prolonged unauthorised absence or a pupil being removed from the School's list under the circumstances outlined in KCSIE.

All staff must also be aware of their role to prevent children from going missing from education. The School will take appropriate action to find any pupil who is discovered to be missing from the School; the Deputy Master should normally be informed in the first instance and will co-ordinate the action taken. A written record is made of any incident of a pupil missing from the School, the action taken,

and any reasons given by the pupil for being missing. The School will ensure that any pupil currently on the Child Protection Register who is absent without explanation for two days is referred to Children's Services. For further details of the School's procedures and responses please see the Supervision of Pupils Policy. This contains the School's procedures for unauthorised absence, including on repeat occasions, as well as referral to the local authority.

Domestic Violence

Domestic abuse and violence is a safeguarding issue and children and young people are at risk and also vulnerable in terms of keeping themselves safe from others. It is defined as any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. Young people can be affected in the following ways:

- Psychologically
- Physically
- Sexually
- Financially
- Emotionally

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Exposure to domestic abuse and / or violence can have a serious, long-lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Members of staff with information about this matter must bring it to the attention of the DSL, who will consult with the local authority.

Gangs and Child Criminal Exploitation (CCE) / County Lines

Criminal exploitation of children is a geographically widespread form of harm: drug networks or gangs groom and exploit children to coerce them into doing dangerous activities such as:

- forcing young people to carry drugs and money from urban areas to suburban and rural areas, market and seaside towns (County Lines);
- forced labour;
- forced to shoplift or pickpocket;
- forced to threaten others.

Key to identifying potential involvement in county lines are missing episodes, when the victim may have been trafficked for the purpose of transporting drugs and a referral to the *National Referral Mechanism* (January 2020) will be considered.

This can affect any child or young person (male or female) under the age of 18 years. It

- Can still be exploitation even if the activity appears consensual;

- Can involve force and / or enticement-based methods of compliance and is often accompanied by violence or threats of violence;
- Can be perpetrated by individuals or groups, males or females, and young people or adults; and
- Is typified by some form of power imbalance in favour of those perpetrating the exploitation. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, cognitive ability, physical strength, status, and access to economic or other resources.

Members of staff with information about this matter must bring it to the attention of the DSL, who will consult with the local authority.

Honour-based Abuse (HBA) including Female Genital Mutilation (FGM) and Forced Marriage

Honour-based violence (HBA) encompasses crimes which have been committed to protect or defend the honour of the family and/or community. Female Genital Mutilation (FGM) and forced marriage are examples of such. All forms of HBA are abuse, regardless of motivation, and should be handled and escalated as such. It should be noted that such abuse can often involve a wider network of family and community that can include multiple perpetrators.

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences. Although the School is an all-boys school, staff need to be mindful of information they may become aware of regarding the boys' sisters, other female relatives or friends. Where a teacher discovers that an act of FGM appears to have been carried out on a girl who is aged under 18, he or she has a personal statutory duty to report it to the police. Those failing to report such cases to the police will face disciplinary sanctions. Unless the teacher has good reason not to, they should still consider and discuss the case with the DSL and involve children's social care as appropriate. This duty does not apply where a teacher merely *suspects* that an act of FGM may have been carried out or that a girl may be at risk of FGM. In all 'at risk' or suspected cases and in cases relating to girls aged 18 or over, teachers should discuss their concerns with the DSL immediately. Any non-teaching staff with concerns about FGM should report their concerns to the DSL immediately.

Mental Health

Mental health issues can sometimes be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. That said, staff are extremely well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one. Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. Those who support pupils' mental health, whilst bearing

in mind patient confidentiality, will seek to ensure that key staff (such as Form Teachers, Heads of Year or the Assistant Master, Pastoral) are aware of how these children's experiences, can impact on their mental health, behaviour and education. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken.

Online Safety

Safeguarding of children extends to the online environment. All staff should be aware of the risks posed to children by technology and the Internet and should understand their role in preventing, identifying and responding to harm caused by its use.

The breadth of issues classified within online safety is considerable, but can be categorised into three areas of risk:

- Content: being exposed to illegal, inappropriate or harmful material; for example pornography, fake news, racist or radical and extremist views;
- Contact: being subjected to harmful online interaction with other users; for example commercial advertising as well as adults posing as children or young adults; and
- Conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example making, sending and receiving explicit images, or online bullying.

The School has adopted a whole-school approach to online safety which captures the range and complexity of the risks and of children's experiences of those risks; it seeks to mitigate those risks as far as possible without depriving children of the significant benefits provided by technology and the Internet; and handles all cases of online harm appropriately and with sensitivity. This policy should be read alongside the School's Policy on e-Safety and which sets out the School's approach to online safety in further detail. In particular, this policy sets out the risks posed to children by the Internet and technology, the indicators that a child may be at risk of such harm, and the measures taken by the School to mitigate these risks, including pupil and parent education, staff training, and limiting the risk of harm caused by the School's IT systems (e.g. appropriate filters). There should be an awareness that unless a parent has added a filter, access to inappropriate content is still possible over 3G or 4G.

If a staff member suspects that a child may be at risk of or causing harm to others online, s/he should follow the procedures for referral to the DSL set out in this policy.

Peer on Peer Abuse

Young people under the age of 18 are capable of physically, sexually or emotionally abusing other people under the age of 18. It is no longer acceptable to tolerate peer-on-peer abuse, dismiss it as normal behaviour amongst children, or pass it off as "banter" or "part of growing up". Staff should not develop high thresholds before taking action: it must be taken as seriously as abuse by adults and be subject to the same safeguarding procedures. Members of staff must not attempt to deal with peer-

on-peer abuse as a pastoral, classroom or disciplinary issue, and should not impose their own thresholds before consulting the DSL. It is true that there will sometimes be a grey area between, on the one hand, incidents which should be regarded as abusive, and on the other, incidents which are more properly dealt with in schools such as (for example) children fighting or experimenting sexually. The DSL can advise staff on the thresholds which pertain to different definitions of peer-on-peer abuse, and in some cases may seek further clarification from pupils.

Staff should be aware that safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but may not be limited to:

- Bullying (including cyberbullying);
- Physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;
- Sexual violence and sexual harassment;
- Sexting (also known as youth produced sexual imagery);
- Upskirting (either for sexual gratification of the perpetrator or to cause upset to the victim);
- Initiation/hazing type violence and rituals.

If there is reasonable cause to suspect that a child is suffering or likely to suffer harm at the hands of another child, the DSL will refer the matter to the local authority or the police, whose directions the School will then follow. Allegations against pupils who have left the School but remain under 18 will be passed to the police and / or the Local Authority in the area in which the pupil is currently living. Generally speaking the School will always quickly inform the parents of victim(s) and perpetrator(s) of potential peer-on-peer abuse, unless (a) it has reason to believe that a child is at risk of significant harm, and doing so would make the situation worse or (b) it has been told not to by the police or local authority.

A victim of peer-on-peer abuse is likely to need considerable support. In addition, the perpetrator is likely to have unmet needs (the evidence suggests such children have often suffered disruption in their own lives) as well as posing a significant risk of harm to other children. As such, a pupil against whom an allegation of abuse has been made may be suspended from the School during an investigation. After the immediate issues have been addressed, and depending on the severity of those issues, the Local Authority may decide to oversee risk assessments and care plans for the victim and / or the perpetrator, in which case the School will cooperate fully; the local authority may decide to hand the matter back to the School, in which case the needs of the victim and / or perpetrator will be addressed as appropriate.

The School actively seeks to prevent all forms of peer on peer abuse by educating students and staff, challenging the attitudes that underlie such abuse, encouraging a culture of tolerance and respect amongst all members of the School community, and responding to all cases of peer on peer abuse and any cases of bullying (no matter how trivial) promptly and appropriately. Children are educated about the nature and prevalence of peer on peer abuse via PSHEE lessons, they are told what to do if they witness or are victims of such abuse, the effect that it can have on the victims and the possible reasons for it, including vulnerability of the perpetrator. They are regularly informed about the School's

approach to such issues, including its zero-tolerance policy towards all forms of bullying and peer on peer abuse.

Staff are trained on the nature, prevalence and effect of peer on peer abuse, how to prevent, identify and respond to it.

Signs that may indicate Peer on peer abuse:

- Failing to attend school, disengaging from classes or struggling to carry out school related tasks to the standard you would ordinarily expect;
- Physical injuries;
- Having difficulties with mental health and / or emotional wellbeing;
- Becoming withdrawn, shy, experiencing headaches, stomach aches, anxiety, panic attacks, suffering from nightmares or lack of sleep or sleeping too much;
- Drugs and / or alcohol use;
- Changes in appearance and/or starting to act in a way that is not appropriate for the child's age.
- Children who have:
 - witnessed or experienced abuse or violence themselves;
 - suffered from the loss of a close family member or friend; or
 - experienced considerable disruption in their lives.

If a member of staff thinks for whatever reason that a child may be at risk of abuse from another child or young person, or that a child may be abusing others, the member of staff should report their concern to the DSL without delay in accordance with the Safeguarding policy. If a child is in immediate danger or at risk of harm, a referral to children's social care and/or the police should be made immediately.

For further information on peer-on-peer abuse, see Appendix D.

Radicalisation and Preventing Extremism

It is the School's duty (the Prevent duty) to have due regard to the need to prevent pupils from being radicalised and/or drawn into terrorism. It recognises that during the radicalisation process it is possible to intervene to prevent vulnerable people being radicalised. The main types of radicalisation in the UK are Islamist Radicalisation and the far-right radicalisation and extremism such as the National Front and the British Nationalist Party. Far-right groups have surged in popularity in recent years.

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism. There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. It can happen in many different ways and settings. Specific background factors

may contribute to vulnerability which are often combined with specific influences such as family, friends, online, or where specific needs for which an extremist or terrorist group may appear to provide an answer to their psychological or emotional problems. The Internet and the use of social media in particular has become a major factor in the radicalisation of young people.

The School is aware of the need to be alert to the risk of radicalisation. As with other safeguarding risks, staff should be alert to changes in children's behaviour which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately, which may include making a referral to the Channel programme, which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. The programme uses a multi-agency approach to protect vulnerable people by identifying individuals at risk; assessing the nature and extent of that risk; and developing the most appropriate support plan for the individuals concerned.

The referral procedures set out below also apply where there are concerns about children who may be at risk of being drawn into terrorism. The DSL is the designated Prevent duty person responsible for co-ordinating action within the School and liaising with other agencies, including the Prevent Lead. The School has assessed the risk of radicalisation posed to the School's pupils and at present it considers the current risk to be low.

- The School will work in partnership with parents and with other agencies, including Police, LSCP and the Westminster City Prevent and Channel teams.
- The DSL will attend Prevent awareness training and provide advice to other members of staff.
- The School will help young people stay safe online through appropriate filters (see the Policy on e-Safety).
- Any visiting speakers to the School will be vetted by the Deputy DSL, and a record kept by them, in order to prevent extremist views being expressed without challenge.
- The School works more generally to ensure that Fundamental British Values of democracy, rule of law and acceptance of others are celebrated, modelled and are not undermined.

Signs that may indicate Radicalisation:

- A conviction that their religion, culture or beliefs are under threat and treated unjustly;
- a tendency to look for conspiracy theories, and a distrust of mainstream media;
- a sense of debt or guilt;
- blaming parents for family problems;
- feeling let down, and perhaps 'religious seeking';
- peer pressure, low self-esteem, and/or the need for identity and belonging;
- physical change/growth spurt (being bigger than peers);
- being secretive about who they have been talking to online and what sites they visit;
- switching screens when you come near the phone, tablet or computer;
- possessing items – electronic devices or phones – you have not given them;
- becoming emotionally volatile.

Self-harm

This includes deliberately cutting one's own skin, eating disorders and substance abuse.

Members of Staff with information about this matter must bring it to the attention of the DSL, who will consult with the local authority.

Serious Bullying

Bullying can take many forms. Broadly, it is unkind and usually persistent behaviour intended to assert the power of one person over another, usually by frightening or humiliating them. It may take the form of verbal, physical or emotional abuse or harassment. A victim may be picked on because of gender, race, religion, culture, physical appearance, sexual orientation, a special educational need or disability – or for no obvious reason at all. The Policy on Anti-bullying contains further details on the School's approach.

Members of staff with information about this matter must bring it to the attention of the DSL, who will consult with the local authority.

Serious violence

This involves pupils being at risk from or involved with serious violent crime, such that they are at risk from harm and exploitation. Members of Staff with information about this matter must bring it to the attention of the DSL, who will consult with the local authority.

Sexting (or Youth Produced Sexual Images [YPSI])

Sexting is defined here as 'sending or posting sexually suggestive images, including nude or semi-nude photographs, via mobiles or over the Internet.' Creating and sharing sexual photos and videos of under-18s is illegal. When an incident involving sexting comes to the School's attention:

- The incident should be referred to the DSL as soon as possible.
- The DSL should hold an initial review meeting with appropriate School staff.
- There should be subsequent interviews with the pupils involved (if appropriate).
- Parents should be informed at an early stage and involved in the process unless there is good reason to believe that involving parents would put the pupil at risk of harm. The UKCCIS guidance will be followed.

In particular, members of staff who suspect that a sexualised image of a child is contained on an electronic device should not ask to view the image and under no circumstances should forward it, e.g. to a School email address – this is against the law.

At any point in the process, if there is a concern that a young person is in need or at risk of harm, a referral should be made to Children's Social Services and/or the Police immediately, in accordance with the procedures set out in this policy.

Other actions to cause concern

Children may find themselves in situations that are not listed above but still might be at significant risk. These might include, for example, situations where another child in the household has been harmed or the household contains a known abuser. Members of staff with information about this matter must bring it to the attention of the DSL, who will consult with the local authority.

Children in Need (Level Three)

At this level, which is defined by Section 17 of the Children Act 1989, a child is not immediately at risk, but his or her needs are already regularly unmet, and without the intervention of specialist support services working in partnership with the family, the child's situation will probably deteriorate still further.

Signs that may indicate a child in need:

Children

- Chronic or significant ongoing health issues
- A disability requiring significant support
- Weight or growth falling two centile ranges (without diagnosed medical problem)
- Missing most immunisations
- Frequent or persistent accidents
- Significant mental health issues
- Evidence of self-harm
- Suicidal thoughts (but without plans or intent)
- An acrimonious, perhaps aggressive relationship with parents
- Significant caring responsibilities at home
- Inappropriate sexual behaviour or activity under 16
- Frequently in risky situations: deliberately puts others or self in danger
- Engagement in risky online behaviour
- Behaviour at school which may lead to exclusion
- Subject to persistent discrimination
- Repeated expressions of low self-esteem

Parents or carers

- A family experiencing a crisis which may result in breakdown of care
- Parents separated, with conflict over contact (child may be used as a pawn)
- Parents are inconsistent in their attachment to child: child is rarely comforted or encouraged
- Supervision of child is sometimes unsafe
- Parents sometimes use inappropriate caregivers

- Parents struggle to provide for child's basic physical or emotional needs as a result of mental health or disability issues, substance misuse (including alcohol) or domestic abuse
- Parents frequently put their own needs above those of child

Members of staff with information about such matters must bring it to the attention of the DSL, who will consult with the local authority.

Early Help Plans (Level Two)

At this level, a child is not immediately in need, but may be vulnerable to emerging issues that may turn into more serious and longer-term issues if left unaddressed.

Signs that may indicate an Early Help Plan is needed:

Children

- A disability or physical illness which requires some support
- Newly arrived in the UK
- Slight speech or language issues
- Missing routine health appointments
- Missing some immunisations
- Slow physical development
- Minor dietary issues
- Minor mental health issues emerging
- Exploring alcohol abuse or low-level drugs relationships are sometimes risky
- Clothing and / or personal hygiene raise low-level concerns
- School attendance is noticeably low
- Special Educational Needs
- Struggling academically
- Escalating behaviour issues
- Questioning self-worth
- Has some caring responsibilities in family

Parents or carers

- Family relationships are strained
- Family are experiencing issues such as bereavement or divorce
- Parents are experiencing parenting challenges
- Parental supervision raises low-level concerns
- Parents are over-protective

The school is likely to seek advice from Children's Services in such a circumstance. Usually, Children's Services will refer the matter back to the School to put together an Early Help Plan which will seek to inform the pupil's family more formally in providing support.

EHPs are only drawn up with the parent's full agreement and cannot exist without it. External professionals sometimes assist with this. A copy of any completed EHP is usually sent by the DSL to the local authority covering the pupil's home address, although this can vary between areas.

Individual Welfare Plans (Level One)

Many of our pupils will have temporary issues to do with:

- Health concerns
- Family issues
- Academic worries
- Peer relationships

These matters will be addressed successfully by their families and by services that are universally open to all pupils on a daily basis:

- Medical facilities
- NHS services
- Counselling
- Pastoral staff
- Special Educational Needs department etc.

Children whose needs are met by these universal services are said to be at Level One.

There will be a few pupils every year whose difficulties will be such that the School will need to ensure it coordinates services more formally and this is done using an Individual Welfare Plan (IWP). These are not recorded as safeguarding issues unless other factors are involved. With the permission of the pupils (where appropriate), information is shared as early as possible with parents and other agencies.

Procedure for dealing with concerns or allegations against members of staff

The safety and wellbeing of our boys depend on the vigilance of all our staff and their prompt communication to the Master of any concerns, no matter how small, about any adult's suitability to work with or have access to children.

The notification and prompt handling of all concerns about adults (including staff, supply staff and volunteers) is fundamental to safeguarding children. It helps to identify and prevent abuse and to protect adults against misunderstandings or misinterpretations. Those raising concerns or reporting allegations in good faith will always be supported, and adults in respect of whom concerns or allegations have been raised will not suffer any detriment unless the concern or allegation is found to be substantiated.

When handling allegations, the School will always follow Part 4 of KCSIE. Responsibility for appropriate action rests with the Master. The procedure would be used in all cases in which it is alleged that a teacher or other member of staff or volunteer has:

- a) behaved in a way that has harmed a child, or may have harmed a child;
- b) possibly committed a criminal offence against or related to a child; or
- c) behaved towards a child or children in a way that indicates s/he would pose a risk of harm to children.
- d) Behaved or may have behaved in a way that indicates they may not be suitable to work with children (transferrable risk). This may include Children's Social Care involvement with their own child, being the perpetrator of domestic abuse, mental ill health or substance misuse issues **that may impact the care of children**, criminal proceedings for Hate crime or membership of organisations with terrorist or extreme right-wing links believed to cause harm to others.

The School will formally inform the LADO within 24-hours who will then make contact with the School to provide advice and determine whether any actions are required to safeguard children. The LADO will determine the distinction between a complaint, a concern about the quality of practice and an allegation.

Informing others about concerns

Any such concerns or allegations about an adult in the School (including supply staff and volunteers, as well as those working with the boys outside the School) should be reported to the Master immediately. The adult to whom the concern or allegation (referred to hereafter as allegation) relates should not be informed.

If **the allegation is about the DSL**, then the Master will need to be informed directly, without informing the DSL.

If the allegation is about the Master, staff must immediately inform the Chairman of the Governing Body (or, in his absence, the Governor with responsibility for safeguarding), without informing the Master.

The Master (or the Chairman of the Governing Body in cases of allegations against the Master) will inform the local authority designated officer (the LADO) of all allegations which meet the criteria above as soon as possible and in any event within 24 hours of the School becoming aware of the allegation. Borderline cases will be discussed without identifying individuals in the first instance. The Master will normally discuss all allegations with the DSL unless it relates to the DSL. Borderline cases may be discussed without identifying individuals in the first instance.

Handling concerns

All allegations will be dealt with fairly, quickly and consistently in a manner that provides effective protection for the child and at the same time supports the person who is the subject of the allegation.

The LADO will discuss with the Master (or Chair of the Governing Body, as above), and any other relevant agencies such as the police, which further steps, if any, should be taken; this could involve informing parents. Where a referral to the police has been made directly the Master (or Chair of the Governing Body) will inform the LADO of the referral as soon as possible and in any event within 24 hours of the School becoming aware of the allegation. There may be cases where the LADO or police are made aware of an allegation before the School is and in those cases they will notify the School of the allegation immediately. All discussions with external agencies should be recorded in writing.

When an allegation is made, the School will make every effort to maintain confidentiality and guard against unwanted publicity while the allegation is being investigated. Where a teacher is facing an allegation of a criminal offence involving a boy registered at the School, the teacher concerned is legally entitled to anonymity until the teacher is charged with an offence, the anonymity is waived by the teacher or until the Secretary of State publishes information about an investigation or decision in a disciplinary case arising from the allegation. In particular, the Education Act 2002 prevents the publication of any material which could lead to the identification of a teacher who has been accused by, or on behalf of, a pupil from the same school (where that identification would identify the teacher as the subject of the allegation).

The legislation imposing restrictions makes clear that “publication” of material that may lead to the identification of the teacher who is the subject of the allegation is prohibited. “Publication” includes “any speech, writing, relevant programme or other communication in whatever form, which is addressed to the public at large or any section of the public”. This means that a parent who, for example, published details of the allegation on a social networking site would be in breach of the reporting restrictions (if what was published could lead to the identification of the teacher by members of the public).

The person against whom an allegation is made should normally be informed as soon as possible after the result of the initial investigation is known. However, where a strategy discussion is needed or police or children’s social care need to be involved neither the person against whom the allegation has been made nor the individual making the allegation should be informed until these agencies have been consulted.

When the individual against whom the allegations have been made is spoken to, he/she will be warned that anything said will be recorded. The School will appoint a representative to keep the person informed of the likely course of action and the progress of the case. They should also advise the individual to contact their trade union representative, if they have one, or a colleague for support. They should also be given access to welfare counselling or medical advice where this is provided by the employer. They will be kept informed of the timescales in accordance with KCSIE.

Supply Teachers

The School does not currently work with supply teachers.

Should the School appoint a supply teacher, even though the School would not be the employer, the School would ensure allegations are dealt with properly: supply teachers, whilst not employed by the school or college, are under the supervision, direction and control of the governing body or proprietor when working in a school or college. This would mean that if the School were to decide against using a supply teacher due to safeguarding concerns, the School would seek out the facts and liaise with the LADO, with the School typically taking the lead in such matters. Consideration would be given to suspending the supply teacher, or redeploying them to another part of the School, whilst the investigation was carried out. The supply teacher would be advised to contact their trade union representative if they have one, or a colleague for support.

When using an agency, schools and colleges should inform the agency of its process for managing allegations. This should include inviting the agency's human resource manager or equivalent to meetings and keeping them up to date with information about its policies. Agencies would be fully involved and it would be expected that they would cooperate in any enquiries. The allegations management meeting which is often arranged by the LADO should address issues such as information sharing, to ensure that any previous concerns or allegations known to the agency are taken into account by the School during the investigation.

Support for Staff

The School recognises that staff working in the School who have become involved with a child who has suffered harm, or appears to be likely to suffer harm, may find the situation stressful and upsetting. We will support such staff by providing an opportunity to talk through their anxieties with the DSL or School Counsellor. Similarly, during any protracted procedure arising from claims of abuse, the School Counsellor may be able to offer confidential support to the member of staff. Members of staff also have access to the School's Employee Assistance Programme.

Suspension

If there is cause to suspect that a child or children at the School are at risk of harm from the accused person, then the person concerned will be suspended. Due weight should be given to the views of the LADO and to the police when making a decision about suspension and all alternative options should be considered prior to taking that step. The reasons and justification for suspension will be recorded and the individual informed of them. In the case of staff, the matter will normally be dealt with in

accordance with the Staff Code of Conduct. In cases where the School is made aware that the Secretary of State has made an interim prohibition order in respect of an individual at the School it will be necessary to immediately suspend that person from teaching pending the findings of the Teaching Regulation Agency (“the TRA”) investigation. In the case of a concern about or an allegation being made against a member of staff resident in Adrian or George House – if a suspension from work is deemed appropriate while an investigation takes place – that member of staff will be temporarily rehoused in accommodation which is not within Adrian or George House.

During the course of the investigation, the School in consultation with the LADO will decide what information will be given to parents, staff, volunteers and other pupils and how press enquiries are to be dealt with. Any pupils who are involved will receive appropriate care.

Outcomes

The initial sharing of information and investigation may lead to a decision that no further action is to be taken in which case this decision should be recorded by the Master and an agreement should be reached with the LADO on what information should be put in writing to the individual concerned.

If the outcome is (1) malicious, (2) false, (3) unsubstantiated or (5) unfounded, a confidential record will be kept but the decision will not affect the member of staff’s employment, and it will not be mentioned in any reference for employment elsewhere.

The Master should then consider with the LADO what action should follow, both in respect of the individual and those who made the initial allegation. Where appropriate the matter will be dealt with under the School's Disciplinary Procedure.

If the allegation is (4) substantiated, this will be recorded and will be mentioned in any reference for employment elsewhere.

Record-keeping

A record will be made of all conversations, including any advice or recommendations by the LADO. These records and any associated documentation will be maintained in a folder, which relates exclusively to allegations against staff. A clear and comprehensive summary of all allegations will be kept on the confidential personnel file of the accused, and a copy provided to the person concerned. The summary will include details of how the allegation was followed up and resolved, and a note of any action taken and decisions reached.

Allegations that are found to have been (1) malicious will be removed from personnel records and the person against whom the complaint has been made will be informed that the matter is closed.

However, for all other allegations, the School will in accordance with KCSIE retain a clear and comprehensive summary of the allegation, details of how the allegation was followed up and resolved, and a note of any action taken and decision reached on the personnel record. A copy should be provided to the person concerned.

Following-up

During the course of the investigation, the School in consultation with the LADO will decide what information will be given to parents, staff, volunteers and other students and how media enquiries are to be dealt with. Any pupils who are involved will receive appropriate care.

If it is established that the allegation is (2) false, (3) unsubstantiated or (5) unfounded, a written record will be made of the decision and the justification for it and then the person against whom the complaint has been made would normally be informed that the matter is closed.

If the allegation is (4) substantiated and the member of staff (whether employed, contracted, a volunteer or a student) resigns or is asked to leave the School, or would have been removed had they not left, on the grounds that they:

- Have harmed (or pose a risk of harm) to a child or vulnerable adult; or
- Have received a caution or conviction for a relevant offence; or
- Are reasonably believed to have committed a listed relevant offence; or
- Have been removed from working (paid or unpaid) in regulated activity

then the Master will (as soon as possible after the person has resigned or the School has ceased to use his/her services) notify the Disclosure and Barring Service at PO Box 101, Darlington DL1 9FA (01325 953795). DBS guidance is given in: <http://www.homeoffice.gov.uk/dbs>.

The School will not enter into settlement or compromise agreements to prevent a referral being made to the DBS when it is legally required. Failure to make a report by an employer where the member of staff has harmed or is likely to harm a child constitutes a criminal offence. Failure to make a report by an employer where the member of staff has harmed or is likely to harm a child constitutes a criminal offence.

For teachers, separate consideration will be given to whether to refer the matter to the Teaching Regulation Agency in order to consider prohibiting the individual from teaching (this includes cases where they would have been dismissed if they had not resigned): the Master, consulting the LADO, will consider whether or not to refer the matter to the Teaching Regulation Agency. The Teaching Regulation Agency may impose a prohibition order to prevent teachers from working in the profession following a finding of: “unacceptable professional conduct”, “conduct that may bring the profession into disrepute” or “conviction, at any time, for a relevant offence”.

The School will always consider what lessons can be learnt from any cases of abuse and how the School's safeguarding systems can be improved to reduce the risk of such abuse recurring.

Historic cases

A colleague who becomes aware of an allegation against a former member of staff, or against a former pupil who is now aged over 18, should pass it to the Master, who will check the existence of other relevant records before promptly informing the Police.

Members of staff who become aware of allegations involving former colleagues or former pupils must otherwise keep the matter wholly confidential.

The Management of Safeguarding and Child Protection

Record-keeping

The DSL is responsible for keeping a secure, accurate written record of concerns raised and actions taken at Levels Three and Four, and for ensuring that the safeguarding file is passed on promptly to the future educational establishment of any pupil leaving the School before the age of 18. Consideration will be given to sharing information in advance of sharing the child protection file.

The school will keep a copy of the file until receipt of the original is confirmed in writing by the new establishment, whereupon the copy will be destroyed. The safeguarding files of pupils who remain at school until age 18 would ordinarily be kept securely for a further six years before being destroyed, but due to the ongoing Independent Inquiry into Child Sex Abuse the School has currently suspended the destruction of records until the inquiry is concluded.

General principles on information sharing (see also Appendix B)

NECESSARY AND PROPORTIONATE

When taking decisions about what information to share, you should consider how much information you need to release. Not sharing more data than is necessary to be of use is a key element of the GDPR and Data Protection Act 2018, and you should consider the impact of disclosing information on the information subject and any third parties. Information must be proportionate to the need and level of risk.

RELEVANT

Only information that is relevant to the purposes should be shared with those who need it. This allows others to do their job effectively and make informed decisions.

ADEQUATE

Information should be adequate for its purpose. Information should be of the right quality to ensure that it can be understood and relied upon.

ACCURATE

Information should be accurate and up to date and should clearly distinguish between fact and opinion. If the information is historical then this should be explained.

TIMELY

Information should be shared in a timely fashion to reduce the risk of missed opportunities to offer support and protection to a child. Timeliness is key in emergency situations and it may not be appropriate to seek consent for information sharing if it could cause delays and therefore place a child or young person at increased risk of harm. Practitioners should ensure that sufficient information is shared, as well as consider the urgency with which to share it.

SECURE

Wherever possible, information should be shared in an appropriate, secure way. Practitioners must always follow their organisation's policy on security for handling personal information.

RECORD

Information sharing decisions should be recorded, whether or not the decision is taken to share. If the decision is to share, reasons should be cited including what information has been shared and with whom, in line with organisational procedures. If the decision is not to share, it is good practice to record the reasons for this decision and discuss them with the requester. In line with each organisation's own retention policy, the information should not be kept any longer than is necessary. In some rare circumstances, this may be indefinitely, but if this is the case, there should be a review process scheduled at regular intervals to ensure data is not retained where it is unnecessary to do so.

Procedure for staff dealing with abuse (including peer on peer abuse)

If a staff member has any concerns about a child, then they should discuss these with the DSL. The DSL will decide on an appropriate course of action. This discussion and actions taken will be recorded. The flow chart in Appendix A, Actions where there are concerns about a child, provides a guide to the process.

Staff should not assume a colleague or another professional will take action and share information that might be critical in keeping children safe. They should be mindful that early information sharing is vital for effective identification, assessment and allocation of appropriate service provision for both victim and perpetrator.

Options include:

- Managing any support for the child internally via the School's own pastoral support processes;
- An early help assessment; or
- A referral for statutory services, for example as the child might be in need, is in need or suffering or likely to suffer harm.

The DSL will liaise with the LSCP and work with other agencies in line with *Working Together to Safeguard Children* (July 2018). The involvement of the Police will also be considered and helpful thresholds for contacting the Police are available (although where a child is in imminent danger, there should be no hesitation in contacting the Police immediately): [NPCC: When to Call the Police](#).

Early Help

- All staff should be aware of the Early Help process, and understand their role. This includes:
- identifying emerging problems and potential unmet needs;
- liaising with the DSL;
- sharing information with other professionals to support early identification and assessment;
- in some cases, acting as the lead professional in undertaking an assessment of the need for early help.

All staff should be alert to identifying children who may benefit from Early Help. Early Help means providing support as soon as a problem emerges at any point in a child's life. If a member of staff has a concern that a child may be in need of early help then they should, in the first instance, discuss Early Help requirements with the DSL.

Where a child and family would benefit from coordinated support from more than one agency (e.g.: education, health, Police) there should be an inter-agency early help assessment – such as the Common Assessment Framework. This should identify what help the child and family require to prevent needs escalating to a point where intervention would be needed via a statutory assessment under the Children Act 1989. If Early Help is appropriate, where they are not taking the lead, then the DSL should support the member of staff in liaising with other agencies, and setting up an inter-agency early help assessment as appropriate.

The Early Help assessment should be undertaken by a lead professional who should provide support to the child and family, act as an advocate on their behalf and coordinate the delivery of support services. The lead professional role could be undertaken by the DSL or a teacher (or a GP, family support worker, health visitor and / or Special Educational Needs Coordinator). Decisions as to who performs this role should be taken on a case by case basis and should be informed by the child and their family.

For an early help assessment to be effective:

- It should be undertaken with the agreement of the child and their parents or carers, and should involve the child and their family as well as all of the professionals who are working with them;
- A teacher (or other relevant professional) should be able to discuss concerns they may have about a child and family with a social worker in the local authority;
- If parents and / or the child do not consent to an early help assessment, then the lead professional should make a judgement as to whether, without help, the needs of the child will escalate. If so, a referral to Children's Social Services may be necessary.

Effective early help in a school setting involves the School (under the guidance of the DSL) providing high quality support, in cooperation with or coordinating other agencies as appropriate, to help address the assessed needs of the child and their family early, in order to significantly improve the outcomes for the child. It is hoped that in each case this should improve the welfare of the relevant child. However, each case should be kept under constant review, and consideration should be given to a referral to Children's Social Services if the child's situation does not appear to be improving.

Children in need or who are at risk of significant harm or in immediate danger

If at any time it is considered that the child may be a child in need, has suffered or is at risk of significant harm, or is in immediate danger, a referral should be made immediately to Children's Social Services – in the local authority where the child lives and in accordance with the threshold document published by the relevant LSCP or equivalent.

If a child is in immediate danger or is at risk of harm a referral should be made to Children’s Social Services and / or the Police immediately.

Any member of staff (or volunteer) may make a referral directly to Children’s Social Services. There is a duty on all staff to persist with referrals to Children’s Social Services if they feel appropriate action is not being taken. However, all staff are expected to raise concerns with the DSL in the first instance and should inform them if they make a referral directly.

If confronted with a possible case of abuse, or disclosure of abuse, each member of staff should in the first instance follow the simple rules of listening and being supportive, but without asking any leading questions. Staff should write up their conversation as soon as possible (as near *verbatim* as possible) and such notes should be signed and dated by the member of staff and handed to the DSL.

If a pupil is deemed to be at risk, or has made an allegation or disclosure of abuse, it must be explained to the pupil that the member of staff is under a duty to report the matter and that confidentiality cannot be promised. All Staff will be made aware that they have a professional responsibility to share information in order to safeguard children. The pupil will need to be reassured that only the minimum number of people will need to know in order to keep them safe, and that it is in their best interests that the matter is reported. It is not appropriate for Staff to conduct any kind of investigation; Staff cannot undertake to keep confidential what the pupil has told them. If a member of staff has concerns about an adult’s behaviour towards pupils, they *must* report these to the Master.

A child’s wishes and feelings should be taken into account when determining what action to take and what services to provide. Systems are in place for children to express their views and give feedback to Staff. These operate with the best interests of the child at their heart.

It is not a requirement for parental consent to have been given for a referral to be made to a statutory agency.

In each case, discretion and confidence will be maintained at the appropriate level, the DSL being responsible for communicating strategies and decisions to fellow professionals. The DSL will report his response to the Master; keep them apprised of any developments; and maintain the written records.

Whistleblowing

All adults have a responsibility to report any concerns about poor or unsafe practice, including in relation to the care and protection of a pupil or pupils. If a member of staff believes that best practice in this area is not being adhered to or that practice may put a pupil or pupils at risk they should follow the School’s Whistleblowing Policy.

No member of staff will suffer a detriment or be disciplined for raising a genuine concern about unsafe practice, provided that they do so in good faith and following the whistleblowing procedures. Where an adult feels unable to raise a concern about poor safeguarding practice with the School, or where they feel that their concern is not being addressed, they can raise their concern externally:

- Guidance can be found at - <https://www.gov.uk/whistleblowing>

- The NSPCC whistleblowing helpline is available for adults who do not feel able to raise concerns regarding child protection failures internally.

T: 0800 028 0285 – line is available from 8:00am to 8:00pm, Monday to Friday

E: help@nspcc.org.uk

A: National Society for the Prevention of Cruelty to Children (NSPCC), Weston House, 42 Curtain Road, London, EC2A 3NH.

Monitoring, evaluation and review

As proprietor the Governing Body has ultimate responsibility for safeguarding. A member of the Governing Body has leadership responsibility for the School's safeguarding arrangements and is responsible for overseeing safeguarding matters and procedures within the School. This Governor receives regular safeguarding training. The DSL reports regularly to this Governor responsible for safeguarding procedures and on particular causes for concern.

The Governing Body has a number of specific duties, which are set out in Part 2 of KCSIE and which include oversight of the School's safeguarding policies, the role of the DSL, inter-agency working, staff training, online safety, teaching pupils about safeguarding, inspection, safer recruitment, allegations of abuse made against staff and other children, and children with special educational needs (SEN) and disabilities. The Governing Body discharges these duties by receiving termly reports on safeguarding matters from both the DSL and the Governor with responsibility for safeguarding, enabling it to review how effectively the School is fulfilling its obligations under current legislation; reviewing this policy annually and inspecting the School's Single Central Register.

This policy is reviewed annually by the Governing Body, and updated more frequently as necessary by the DSL. The School regularly assesses the effectiveness of its safeguarding procedures as a whole – in a group including among others the DSL, Deputy DSL and the Governor with responsibility for Child Protection – and will seek to remedy any deficiencies without delay.

Appendix A - Child Protection Procedures (Issued To Staff On A Wallet-Sized Card)

WHAT TO DO

you suspect a pupil is being abused or if a pupil makes a disclosure:

- Report the matter immediately to the DSL or a Deputy DLS (or a member of SMT if the DSLs are not available).
- Do not share your concerns with other adults or pupils

you receive an allegation about a member of staff:

- Report the matter immediately to the Master, Steve Bailey (steve.bailey@westminster.org.uk)
- If it is about the Master, report it to the Chair of Governors (The Revd Dr David Hoyle) (chairofgovernors@westminster.org.uk)

KEY CONTACTS

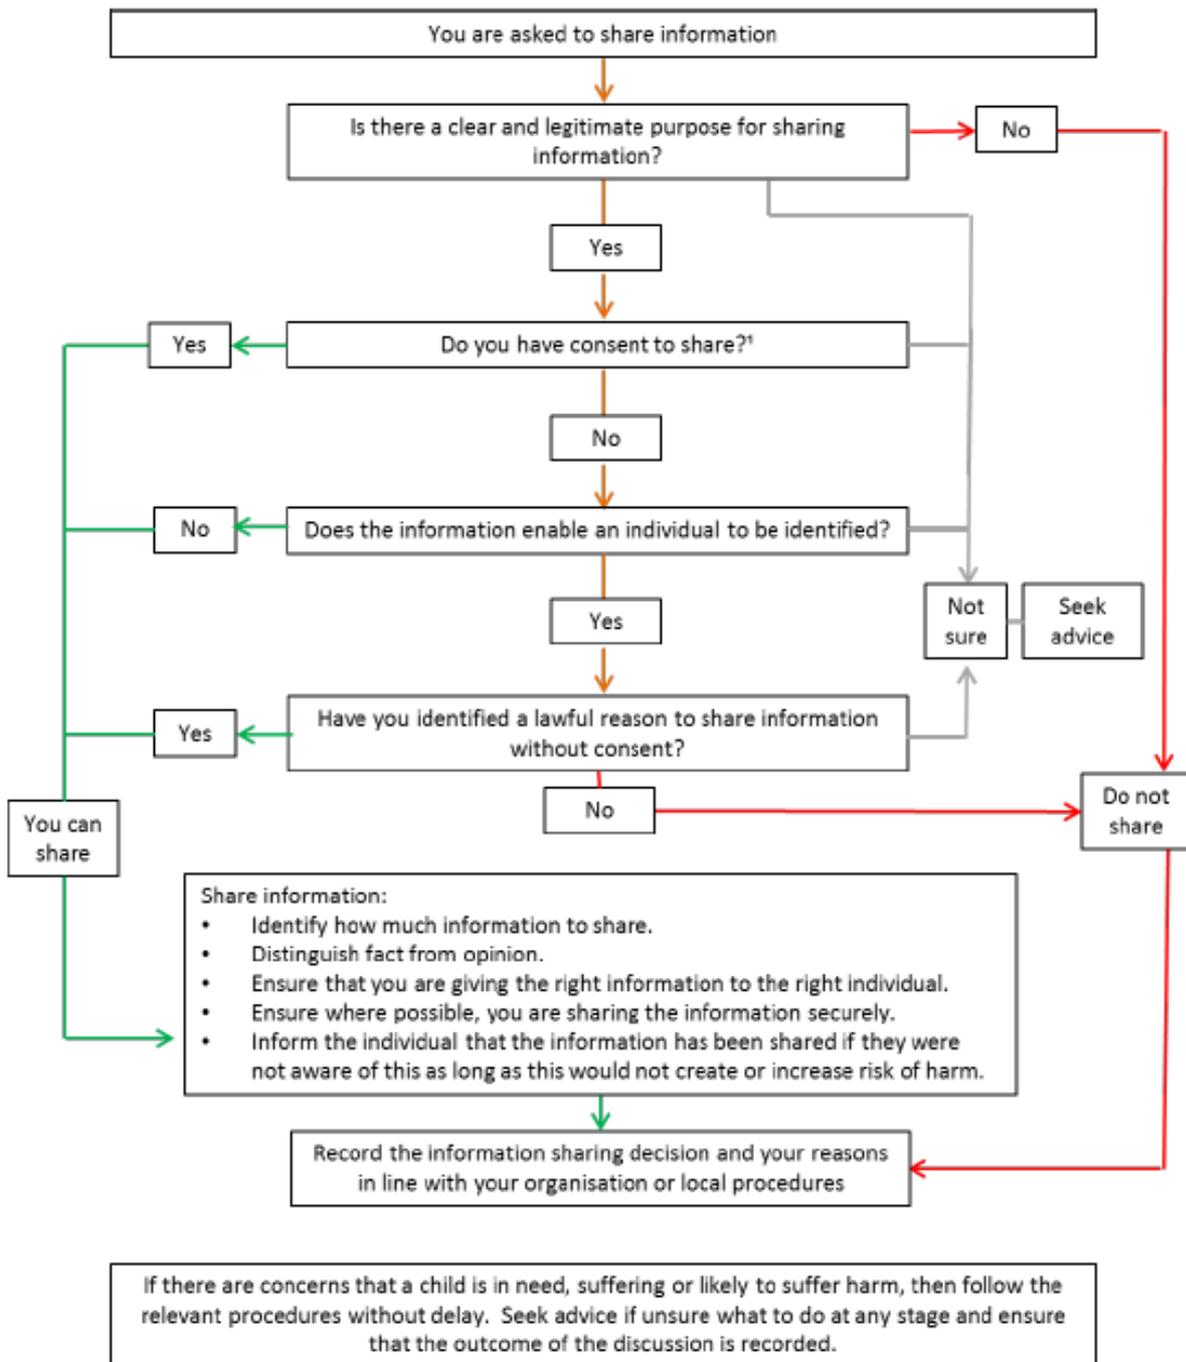

Michael Woodside, Deputy Master and DSL (michael.woodside@westminster.org.uk)

Rupert Candy, Assistant Master, Teaching and Learning (rupert.candy@westminster.org.uk)

Eleanor Marr, Assistant Master, Pastoral (eleanor.marr@westminster.org.uk)

Hayley Wellman, Head of Juniors (hayley.wellman@westminster.org.uk)

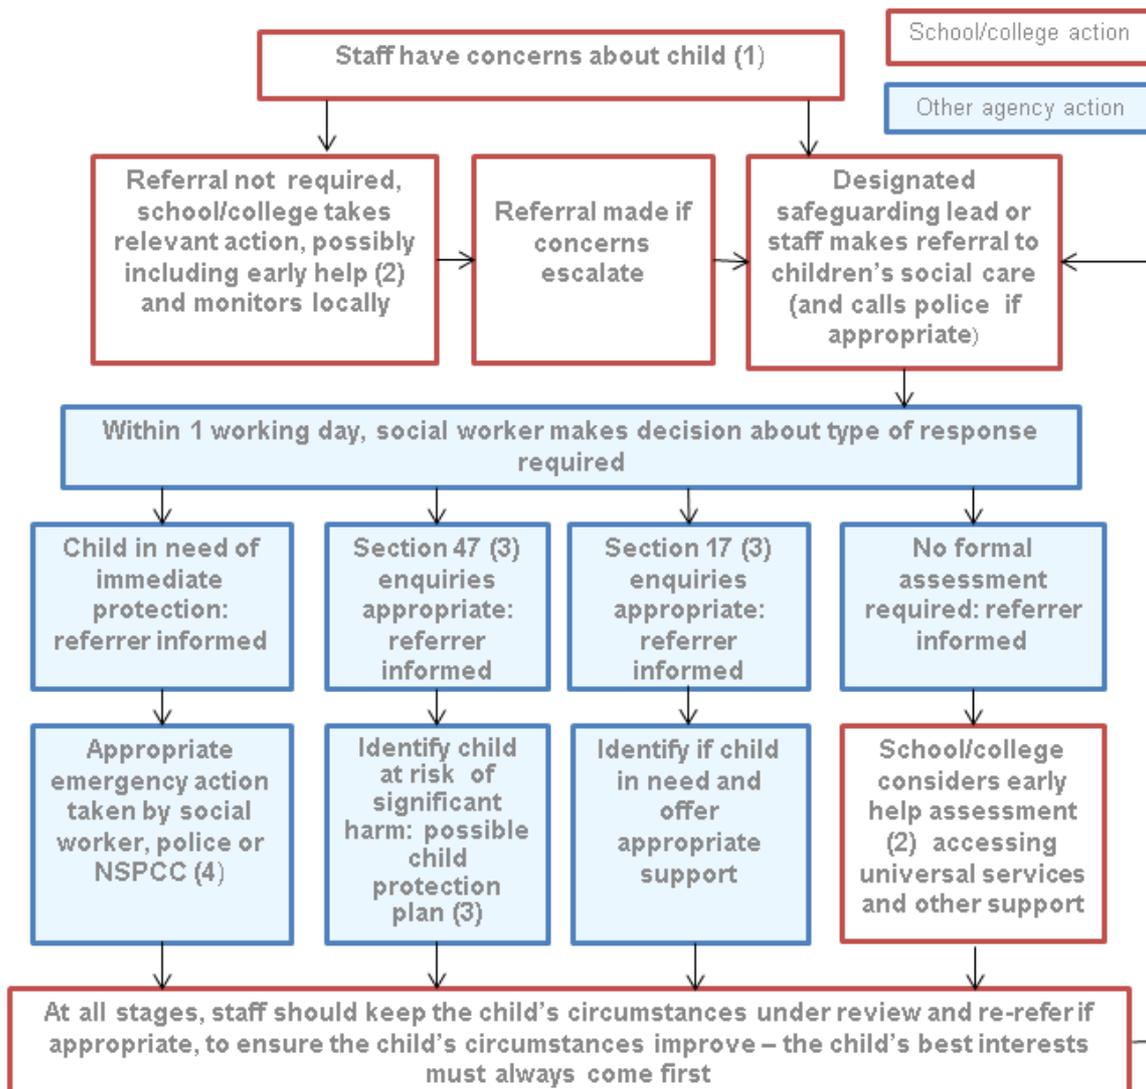

Appendix B - Flowchart of When and How to Share Information

1. Consent must be unambiguous, freely given and may be withdrawn at any time

Appendix C - Actions where there are Concerns about a Child

Actions where there are concerns about a child

Appendix D - Peer On Peer Abuse

All staff should be alert to the risk of Peer on Peer abuse and understand their role in preventing, identifying and responding to it. Staff should know that children are capable of abusing their peers, they should never dismiss abusive behaviour as a normal part of growing up, or “banter”, and should not develop high thresholds before taking action. Peer on Peer abuse should be taken as seriously as abuse by adults.

What is Peer on Peer abuse?

For these purposes, Peer on Peer abuse is any form of abuse perpetrated by a child towards another child. It can take many different forms including, but not limited to, serious bullying (including cyber-bullying)², relationship abuse³, child sexual exploitation⁴, youth and serious youth violence⁵, harmful sexual behaviour⁶, and gender-based violence⁷.

These categories of abuse rarely take place in isolation and often indicate wider safeguarding concerns. For example, a teenage boy may be in a sexually exploitative relationship with a teenage girl who is herself being physically abused by a family member. Equally, while children who abuse may have power over those who they are abusing, they may be simultaneously powerless to others.

Sexting can but does not always constitute abusive behaviour.

When does behaviour become abusive?

It can be difficult to distinguish between abusive behaviour which should be dealt with in accordance with the procedure set out below, and behaviour which does not constitute abuse, such as low level bullying (where the School’s [Policy on Anti-bullying](#) - should be followed) or age appropriate sexual experimentation.

Factors which may indicate that behaviour is abusive include (a) where it is repeated over time and/or where the perpetrator intended to cause serious harm; (b) where there is an element of coercion or pre-planning; and (c) where there is an imbalance of power, for example, as a result of age, size, social status or wealth. This list is not exhaustive and staff should always use their professional judgment and discuss any concerns with the DSL.

How can I identify victims of Peer on Peer abuse?

By being alert to children’s wellbeing and to signs of abuse. Signs that a child may be suffering from Peer on Peer abuse overlap with those relating to other types of abuse and include: (a) failing to attend school, disengaging from classes or struggling to carry out school related tasks to the standard you would ordinarily expect; (b) physical injuries; (c) having difficulties with mental

² Please see the School's Policy on Anti-bullying.

³ <https://www.disrespectnobody.co.uk/relationship-abuse/what-is-relationship-abuse/>

⁴ See Appendix A

⁵ Serious youth violence is any of the most serious offences where the victim is aged 19 or below, including murder, manslaughter, rape, wounding with intent and causing grievous bodily harm. Youth violence also includes assault with injury offences.

⁶ This is any sexual behaviour by a child or young person which is outside of developmentally "normative" parameters. This can (but does not always) include abusive behaviour such as sexual assaults.

⁷ This is violence that is directed against one gender as a result of their gender.

health and/or emotional wellbeing; (d) becoming withdrawn, shy, experiencing headaches, stomach aches, anxiety, panic attacks, suffering from nightmares or lack of sleep or sleeping too much; (e) drugs and/or alcohol use; (f) changes in appearance and/or starting to act in a way that is not appropriate for the child's age. Again, this list is not exhaustive and the presence of one or more of these signs does not necessarily indicate abuse.

Are some children particularly vulnerable to abusing or being abused by their peers?

Any child can be affected by Peer on Peer abuse and staff should be alert to signs of such abuse amongst all children. Research suggests that:

- a) Peer on Peer abuse is more prevalent amongst children aged 10 and older although it also affects younger children, including by way of harmful sexual behaviour;
- b) children who are particularly vulnerable to abuse or to abusing others include those who have:
 - (i) witnessed or experienced abuse or violence themselves;
 - (ii) suffered from the loss of a close family member or friend;
 - (iii) experienced considerable disruption in their lives.

How prevalent is Peer on Peer abuse?

Recent research suggests that Peer on Peer abuse is one of the most common forms of abuse affecting children in the UK. For example, over a third of young boys in England admitted to watching pornography and having negative attitudes towards women (University of Bristol and University of Central Lancashire, 2015).

Two thirds of contact sexual abuse experienced by children aged 17 or under was perpetrated by someone who was also aged 17 or under (Radford et al., 2011).

What should I do if I suspect either that a child may be being abused, or that a child may be abusing others?

If a member of staff thinks for whatever reason that a child may be at risk of abuse from another child or young person, or that a child may be abusing others, the member of staff should report their concern to the DSL without delay in accordance with the Safeguarding policy. If a child is in immediate danger or at risk of harm, a referral to children's social care and/or the police should be made immediately.

How will the DSL respond to concerns of Peer on Peer abuse?

The DSL will discuss the behaviour with the member of staff and will where necessary take any immediate steps to ensure the safety of the victim(s) or any other child.

Where the DSL considers or suspects that the behaviour might constitute abuse children's social care should be contacted immediately and in any event within 24 hours of the DSL becoming aware of it. The DSL will discuss the incident with children's social care and agree on a course of action, which may include:

- (a) taking any steps to ensure the safety and wellbeing of any children affected;
- (b) further investigation;
- (c) referral to other agencies such as the police (where a crime may have been committed), CAMHS, a specialist harmful sexual behaviour team and/or youth offending services; and
- (d) a strategy meeting.

Any response should be decided in conjunction with children's social care and other relevant agencies and should:

- Investigate the incident and the wider context and assess and mitigate the risk posed by the perpetrator(s) to the victim(s) and to other children;
- consider that the abuse may indicate wider safeguarding concerns for any of the children involved;
- treat all children (whether perpetrator or victim) as being at risk - while the perpetrator may pose a significant risk of harm to other children, he may also have considerable unmet needs and be at risk of harm himself.
- take into account the complexity of Peer on Peer abuse and of children's experiences and consider the interplay between power, choice and consent. While children may appear to be making choices, if those choices are limited they are not consenting;
- take appropriate action in respect of the perpetrator – any action should address the abuse, the causes of it and attitudes underlying it. Factors to consider include: the risk the perpetrator poses and will continue to pose to other children, their own unmet needs, and the severity of the abuse and the causes of it. Disciplinary action may be appropriate, including
 - (a) to ensure that the perpetrator takes responsibility for and realises the seriousness of his behaviour;
 - (b) to demonstrate to the perpetrator and others that abuse can never be tolerated; and
 - (c) to ensure the safety and wellbeing of the victim and other children in the School. Permanent exclusion will only be considered as a last resort and only where necessary to ensure the safety and wellbeing of the victim(s) and other children in the School;
- provide on-going support to victim(s) including by
 - (a) ensuring their immediate safety;
 - (b) responding promptly and appropriately to the abuse;
 - (c) assessing and addressing any unmet needs;
 - (d) following the procedures set out in the safeguarding policy (including where the child is in need of Early Help or statutory intervention);
 - (e) monitoring the child's wellbeing closely and ensuring that he receives on-going support from all relevant staff members (including the School Counsellor) within the School;
 - (f) engaging with the child's parents and any external agencies to ensure that the child's needs are met in the long-term;
- consider the lessons that can be learnt from the abuse and put in place measures to reduce the risk of such abuse recurring. This may include, for example: equalities work, work around school

safety, security and supervision, awareness raising for staff, pupils and parents about a particular form of abuse, training for staff on handling certain types of incidents or abuse.

How does the School raise awareness of and reduce the risk of peer on peer abuse?

The School actively seeks to prevent all forms of Peer on Peer abuse by educating pupils and staff, challenging the attitudes that underlie such abuse, encouraging a culture of tolerance and respect amongst all members of the School community, and responding to all cases of Peer on Peer abuse and any cases of bullying (no matter how trivial) promptly and appropriately. Children are educated about the nature and prevalence of Peer on Peer abuse via PSHEE lessons, they are told what to do if they witness or are victims of such abuse, the effect that it can have on the victims and the possible reasons for it, including vulnerability of the perpetrator. They are regularly informed about the School's approach to such issues, including its zero-tolerance policy towards all forms of bullying and Peer on Peer abuse.

Staff are trained on the nature, prevalence and effect of Peer on Peer abuse, how to prevent, identify and respond to it.

Appendix E – COVID-19: School Not in Session

In order to safeguard pupils during these unprecedented times the School is following the government guidance for school closures during COVID-19. This Appendix sits alongside the School's existing Safeguarding Policy and will apply when the School is not in session.

Principles

As far as is reasonably possible, Westminster Under School will take a whole institution approach to safeguarding. This will allow us to satisfy ourselves that any new policies and processes in response to COVID-19 are not weakening our approach to safeguarding or undermining our Safeguarding Policy.

Whilst the way that we are currently operating in response to COVID-19 is fundamentally different to business as usual, a number of important safeguarding principles remain the same:

- The best interests of children will always continue to come first;
- If anyone has a safeguarding concern about any child then they should continue to act and to act immediately;
- A DSL or a DDSL will always be available and members of the SMT can continue to be consulted as and where necessary;
- It is essential that unsuitable people are not allowed to enter the children's workforce and / or gain access to children, which means that Safer Recruitment principles remain in place;
- Children should continue to be protected when they are online.

This Appendix to the School's Safeguarding Policy contains details of our individual safeguarding arrangements for the identified areas.

Contact details

The Safeguarding Team continue to remain available so as to be able to receive and respond to any concerns that might arise. This can be done by email, telephone or video call.

The Safeguarding Team continues to work alongside Children's Services and the LADO.

All members of the Safeguarding Team have access to the School site and any relevant files and documentation, should the need arise.

Vulnerable children

Vulnerable children include those who have a social worker and those children and young people up to the age of 25 with education, health and care (EHC) plans. Those who have a social worker include children who are subject to a Child Protection Plan, a Child in Need Plan and those who are looked after by the Local Authority. Westminster will continue to work with and support children's social workers to help protect vulnerable children.

The Master, DSL and DDSLs know who our most vulnerable children are: they also have the flexibility to offer support to those on the edge of receiving children's social care support. The School expects all pupils to attend the School remotely and, where it is deemed to be appropriate, will encourage our vulnerable children to attend physically. If the expectation is that a vulnerable pupil will attend the School physically, consideration will be given as to whether the pupil has any underlying health conditions that put them at risk and will be subject to the formal agreement with the child's social worker. In circumstances where a parent does not want to bring their child to an education setting, and their child is considered vulnerable, the social worker and the School will explore the reasons for this directly with the parent following the advice set out by Public Health England. The School will ensure that all professionals (e.g.: social workers, SEND case workers, Early Help worker etc.) involved with these vulnerable children are fully informed around the current attendance of the child (attending School or not, either remotely or physically) and if not attending School, the arrangements that have been put in place around safeguarding the child.

Registration and attendance

The School will continue to record day-to-day and lesson-by-lesson attendance. Absences will be reported as is usual and any unexplained absences will be followed up.

Vulnerable children who are required to attend School every day whether physically or virtually (including Looked After Children, Children subject to a Child Protection Plan and Children subject to a Child in Need Plan) and who are absent, will result in the School contacting the relevant Children's Services and providing the following details:

- School name and DSL details
- Full name of child
- Date of birth of child
- When the child was last seen by School staff

The Department for Education may reintroduce a daily online attendance form to keep a record of children of key workers and vulnerable children who are attending School: (<https://www.gov.uk/government/publications/coronavirus-covid-19-attendance-recording-for-educational-settings>). This allows for a record of attendance for safeguarding purposes and allows schools to provide accurate, up-to-date data to the department on the number of children taking up places. The Deputy Master, who is the nominated member of staff responsible for recording pupil attendance, will complete and return the form daily if it is reintroduced.

Staff absence

If a member of staff is ill and needs to be absent for a School session, the Deputy Master should be notified by 07h30 or earlier.

If there is to be a planned absence, authorisation should be sought by completing the relevant absence request form online.

These arrangements ensure that pupils can be properly registered and supervised.

Home School and Hub School safeguarding arrangements

Definitions

Home School: School which pupil normally attends.

Hub School: School which is physically open and children from other schools are attending.

Responsibilities

The Home School maintains responsibility for safeguarding children on roll.

The Home School must ensure that the Hub School has the contact details for their DSL. Each Home School DSL must have the contact details of the Hub School DSL.

Where there is a need to make a request for support to Children's Services or to contact an allocated social worker, the Home School DSL retains responsibility for these tasks with support from the Hub School.

It is important for the Home School to provide any relevant safeguarding information relating to individual pupils to the Hub School DSL and other staff on a need to know basis, including a daily record of attendance. Additionally, confirmation needs to be received from the Home School headteacher listing the staff that will be deployed and confirming that the relevant safer recruitment processes and checks have been carried out (DBS etc.).

Reporting a concern

Where staff have a concern about a child, they should continue to follow the process outlined in the School's Safeguarding Policy.

Where staff are concerned about an adult working with children in the School, they should continue to follow the normal procedures and notify the Master immediately or the Chair of Governors if the matter concerns the Master.

If there is an immediate concern or the relevant person is not available, then it is appropriate to contact the Local Authority and / or the Police.

Safeguarding training

All face-to-face DSL refresher training has been suspended by the Local Authority and it is very unlikely to take place whilst there remains a threat of the COVID-19 virus. For the period COVID-19 measures are in place, a DSL (or deputy) who has been trained will continue to be classed as a trained DSL (or deputy) even if they miss their refresher training. Online training should be considered.

All existing staff have had safeguarding training and have read Part 1 of Keeping Children Safe in Education (2020). The DSL will communicate with staff any new local arrangements, so they know what to do if they are worried about a child. Where there is an update to the School's Safeguarding

Policy, it will be necessary for all members of staff to confirm that they have read and understood the School's revised Safeguarding Policy.

Where new staff are recruited, or new volunteers enter the School, they will continue to be provided with a safeguarding induction, but online rather than face-to-face.

If staff are deployed from another education or children's workforce setting, the School will take into account the DfE supplementary guidance on safeguarding children during the COVID-19 pandemic and will accept portability as long as the current employer confirms in writing that:

- The individual has been subject to an enhanced DBS and children's barred list check;
- There are no known concerns about the individual's suitability to work with children;
- There is no ongoing disciplinary investigation relating to that individual.

Upon arrival, they will be given a copy of the School's Safeguarding Policy, confirmation of local processes and confirmation of DSL arrangements.

Safer Recruitment / Volunteers

It remains essential that people who are unsuitable are not allowed to enter the children's workforce or gain access to children. When recruiting new staff, the School will continue to follow the relevant safer recruitment processes for their setting, including, as appropriate, relevant sections in Part 3 of *Keeping Children Safe in Education (2020)* (KCSIE).

In response to COVID-19, the Disclosure and Barring Service (DBS) has made changes to its guidance on standard and enhanced DBS ID checking to minimise the need for face-to-face contact.

Where volunteers are deployed, we will continue to follow the checking and risk assessment process as set out in the relevant sections of KCSIE (2020). Under no circumstances will a volunteer who has not been checked be left unsupervised or allowed to work in regulated activity.

The School will continue to follow its legal duty to refer to the DBS where appropriate, in line with advice from the LADO, anyone who has harmed or poses a risk of harm to a child or vulnerable adult.

The School will continue to consider and make referrals to the Teaching Regulation Agency (TRA) as set out in the relevant section of KCSIE (2020) and the TRA's "Teacher misconduct advice for making a referral". During the COVID-19 period all referrals will be made by emailing Misconduct.Teacher@education.gov.uk

Whilst acknowledging the challenge of the current national emergency, it is essential from a safeguarding perspective that the School is aware, on any given day, which staff / volunteers will be in School, and that appropriate checks have been carried out, especially for anyone engaging in regulated activity. As such, the School will continue to keep the single central record (SCR) up to

date as outlined in the relevant section of KCSIE. The SCR can also be used to log details of any risk assessments carried out on volunteers and staff on loan from elsewhere.

Online safety through School systems and in School

The School will continue to provide a safe environment, including when working online. This includes the use of appropriate filters and online monitoring systems applied to the School's online platforms, through which all School business must be conducted.

Where children are using computers in School, appropriate supervision will be in place.

The School will ensure that any use of online learning tools and systems is in line with privacy and GDPR requirements.

Online safety away from School

It is important that all staff who interact with children, including online, continue to look out for signs that a child may be at risk. To report any such concerns, staff should continue to follow the process outlined in the School's Safeguarding Policy; where appropriate, referrals should still be made to Children's Services and, as required, the Police.

Pupils will be briefed on how to keep themselves safe when online, reporting matters to members of staff or using the following websites:

- Childline for support:
<https://www.childline.org.uk/>
- UK Safer Internet Centre to report and remove harmful online content:
<https://reportharmfulcontent.com/>
- CEOP for advice on making a report about online abuse:
<https://www.ceop.police.uk/safety-centre/>

Additionally, pupils will be referred to the Pupils' Acceptable Use Policy.

Staff Code of Conduct

Professional judgment coupled with the Staff Code of Conduct should prevail when staff consider how to conduct themselves: this approach also applies to online interaction.

The Director of Teaching and Learning leads on matters related to remote teaching and the School's Remote Learning Policy gives clear advice and guidance. The following expectations are to be observed when engaging in virtual lessons and especially where webcams are involved.

Appearance and presentation

- Staff and pupils must wear appropriate clothing, as should anyone else in the household who might be visible.

- Other than the staff and the pupil, no other member of the household should be in attendance during lessons or activities, except by prior arrangement and with the explicit permission of all parties.
- Any devices used should be in appropriate areas (for example, not in bathrooms).
- Video calls should have the 'blur background' feature enabled where appropriate.
- A formal and respectful register should be deployed at all times, including anyone else in the household who might be audible or visible.
- Always take time to listen to others, give others time to speak, and avoid talking at the same time.

Scheduling and different types of meeting

- Staff and pupils should adhere to the published timetable for lessons and events.
- Small group meetings are to be preferred to one-to-one meetings.
- Where one-to-one meetings need to be scheduled, they should be pre-arranged as a calendared meeting, at a mutually convenient time during the conventional working day. For academic matters, a co-teacher / HoD must be cc-ed in and able to attend. For pastoral matters, another member of pastoral staff must be cc-ed in and able to attend. The exception to this is in counselling or medical matters, where a higher degree of confidentiality is typical; there careful records of the date, time and content of the meeting need to be made.
- If either a pupil or a member of staff has a concern about the nature of any online interaction, the matter should be reported to the DSL.

Video calling and online platforms

- Live classes and images through the online platforms are not to be recorded, except with the explicit permission of all relevant parties and only for the purposes of examination assessment.
- All participants in any online video call should be visible except when specifically instructed that video should be disabled.
- Only platforms provided by the School should be used in order to communicate between members of staff and pupils.
- Any behaviour or comments that are inappropriate should be reported to the Form Teacher or Head of Year, or, in the case of a safeguarding concern, to the Deputy Master.

Expectations of households where pupils are working

Pupils need to be able to work in a workspace that is quiet, safe and free from distractions. Pupils will need access to a computer that has wireless access and video-conferencing facilities.

It is not expected that other members of the household will be in attendance or take part in a scheduled session with a member of staff, unless a separate meeting has been specifically arranged.

It is not appropriate for parents to record, share or comment in any public or closed forum about individual pupils or members of staff.

Supporting children when they are not in School

Physical wellbeing

Protracted periods of time sat in front of a computer are not healthy. All members of the community should seek to break up their screen-time, taking breaks regularly away from the screen. The 20-20-20 method should be used to prevent eyestrain.

Pupils on the edge of social care support

The School is committed to ensuring the safety and wellbeing of all of its pupils.

Where the DSL has identified a pupil to be on the edge of social care support, or who would normally receive enhanced levels of pastoral-type support in School, the Assistant Master, Pastoral in discussion with the DSL will ensure that a robust communication plan is in place for that child. The communication plan could include: strategic remote contact, telephone contact and door-step visits.

Emotional welfare

The School recognises that it has a role to play in protecting the welfare of its pupils and that the current circumstances can affect the mental health of pupils, their parents / guardians and their families. Staff need to be aware of this in setting expectations of pupils' work and of the way in which they interact with pupils and their families.

Key workers' children

The School will ensure that where the children of critical workers and vulnerable children are on site, it will provide appropriate support, ensuring that appropriate staff are on site and that the staff to pupil ratio numbers are appropriate, to maximise safety.

Promoting HM Government advice

The School recognises the important role that it has to play in helping the community to safeguard itself. As such, opportunities to promote social distancing and good hygiene will be taken regularly.

Peer on peer abuse

Where the School receives a report of peer on peer abuse, the principles as set out in KCSIE (2020) and those outlined within the School's Safeguarding Policy will be followed. The School will listen and work with the young person, parents and any multi-agency partner required to ensure the safety and security of that young person. Concerns and actions must be recorded, and appropriate referrals made.

APPENDIX F

COVID-19 – pupils returning to School after absence

In order to safeguard pupils during these unprecedented times the School is following the government guidance for school closures during COVID-19. This Appendix sits alongside the School's existing Safeguarding Policy and applies to pupils who have been absent from School for a period of time after having been absent.

Face-to-face engagement with pupils

Having been away from School for some time and with pupils and staff only engaging remotely, it is likely that staff will notice some change in the way that pupils present. Typically, colleagues will pick up on small changes in behaviour or outlook, but it is likely that some subtle changes will not be at all obvious. As such, the level of pastoral engagement with pupils will need to be more exploratory and potentially more searching than usual, with direct questions asked about health and wellbeing. For those who have a safeguarding profile, it is especially important that sensitive questions are raised.

Handling concerns

Staff (and, indeed, pupils) may identify new safeguarding concerns about individual children as they see one another in person following the School's closure. As usual, any concerns should be shared with a member of the Safeguarding team and advice sought, if necessary. It continues to be the case that staff must act immediately on any safeguarding concerns that might arise.

The process for sharing information about peer-on-peer abuse remains the same as in Appendix D.

If staff have concerns about a staff member or volunteer who may pose a safeguarding risk to children, staff should follow the same arrangements as outlined in main policy under the heading "Concerns about / allegations against a member of staff".

The DSL and Deputy DSLs continue to be available on-site and ready to provide any support that is required.

Sharing information

Form Teachers and Heads of Year will continue to engage with parents about the welfare of pupils, so as to inform any conversations that are taking place with pupils. Any lower level concerns will be picked up with the DSL in the weekly Safeguarding Meeting.
